Summary

Full Stack Developer with experience in building responsive websites, managing frontend and backend tasks, and improving website performance through SEO and workflow automation. Skilled in MERN stack, with experience in live projects, user-friendly interfaces, and AI-based processes that support business growth.

Technical Skills

Programming Languages: TypeScript, JavaScript, HTML5, CSS

Frameworks and Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, PHP, Bootstrap

UI and Animations: Radix UI, Shadcn UI, Framer Motion

Databases and Caching: MySQL, PostgreSQL, MongoDB

SEO & Optimization: On-Page SEO, Off-Page SEO, Website Audit, Keyword Research, GSC

AI Automation & Workflows: n8n, AI Agents, Webhooks, Workflow Automation, CRM Integration

Tools & Platforms: Firebase, Cursor, Git & GitHub, FileZilla, Figma, Excel, Windsurf, Sanity CMS, Server Side Rendering (SSR), CSR, SSG

Experience

Search Engine Optimization Intern

March 2026 – June 2026

Glee Impex Pvt. Ltd (Noida)

- Executed On-Page SEO strategies by optimizing website content, keyword targeting, URL structures, meta tags, image alt texts, and internal linking to improve organic search performance and user engagement.
- Managed Off-Page SEO campaigns through high-quality backlink creation, directory submissions, social bookmarking, guest posting, article submissions, and business listing activities to strengthen website authority and online presence.

Front-End Developer Intern

April 2025 – August 2025

Connective9 Media Labs Pvt. Ltd (Gurugram)

- Built fully responsive, cross-browser web interfaces using JavaScript, React.js, HTML5, and CSS3; integrated UI libraries and frameworks including Bootstrap, Tailwind CSS, Framer Motion, and Shadcn UI; managed content and components via WordPress for hybrid sites.
- Implemented CI/CD and deployment workflows using Git and FTP (FileZilla); monitored live application performance and ensured high server uptime and stability during peak traffic.
- Improved site speed and SEO using lazy loading, code-splitting, tree-shaking, and asset optimization; implemented semantic markup, meta tags, and structured data to improve rankings and UX metrics.
- Consistently delivered high-quality, production-ready features ahead of schedule with strong attention to design detail, resulting in high client satisfaction and repeat engagements.

Notable Projects

Velora-Studio AI | *Next.js, TypeScript, Node.js, JWT Authentication, Tailwind CSS, SERP API, Google Gemini AI, MongoDB, Express.js* | [🔗 Live](#)

2026

- Developed SEO Rank Tracker, an AI-powered SEO analytics platform designed to perform website audits, technical SEO analysis, keyword tracking, and search engine performance optimization for modern web applications.
- Built and optimized scalable MERN stack applications with React, Node.js, Express.js, and MongoDB, enabling secure backend integration, fast API responses, and efficient real-time SEO data processing.

- Implemented advanced SEO optimization features including Core Web Vitals analysis, page speed monitoring, meta tag auditing, keyword performance analysis, and content structure evaluation to improve organic search rankings and website visibility.
- Engineered a responsive and high-performance frontend using TypeScript, Tailwind CSS, and Vite, focusing on component-based architecture, UI optimization, cross-device compatibility, and seamless user experience.
- Integrated AI-driven SEO recommendations and automated reporting systems to deliver actionable insights for on-page SEO, content optimization, search visibility improvement, and digital marketing performance enhancement.

ShiftKitchen AI | *Next.js, TypeScript.js, React, TailwindCSSv4* | [🔗 Live](#)

2026

- Developed ShiftKitchen AI, an AI workflow automation platform for restaurants, cloud kitchens, and bakeries using Next.js, TypeScript, React, and Tailwind CSS v4.
- Built intelligent business automation workflows with n8n for customer communication, order handling, lead management, menu sharing, and billing generation.
- Integrated WhatsApp automation for menu delivery, customer query handling, order selection flows, and invoice generation.
- Engineered reusable React components, API integrations, performance optimization, and deployment pipelines on Vercel and Render.
- Integrated animations, smooth scrolling, and mobile-friendly layouts.

Navura AI | *Next.js, TypeScript.js, React, Framer-motion, spline, TailwindCSSv4* | [🔗 Live](#)

2026

- Developed a modern AI SaaS landing page with responsive UI/UX, smooth animations, and interactive parallax effects for enhanced user engagement.
- Built the application using React, Vite, and TypeScript for scalable and high-performance frontend development.
- Designed reusable and mobile-friendly UI components using Tailwind CSS to ensure responsive layouts across devices.
- Integrated dynamic animations and smooth scrolling interactions using react-just-parallax to improve visual experience and user retention.
- Deployed the project on Vercel with optimized performance, fast loading speed, and production-ready deployment workflow.

Education

Bachelor's Degree in Computer Applications

July 2023 – July 2026

Amity University, Noida

Certifications

- Advanced Excel :- Amity University, Noida: Advanced functions, pivot tables, data visualization, and automation (macros) for business reporting.
- Data Analytics :- Job Simulation: Hands-on data cleaning, exploratory analysis, and insight generation using real-world datasets in a simulated job environment.
- Full Stack Development :- Simplilearn: End-to-end web development (front-end, back-end, databases), REST APIs, and deployment with practical project work.
